

Current Openings

On-Call House Managers - House Managers are responsible for the supervision and management of resident behavior and crisis intervention. They ensure the facility is safe, well maintained, socially healthy and chemically free at all times. They enforce facility rules and policies as prescribed by the Program Manager. The House Manager supports residents and serves as a liaison between residents and treatment program staff.

 Program Manager – Women’s Facility 612-869-3223

Counselor Interns - Opportunities for on the job training within our gender-specific residential chemical health halfway houses. All internship opportunities are available to students who are enrolled in a college, university or accredited chemical dependency program that offers course credit for internships. Supervision is provided by licensed alcohol and drug counselors and the Program Manager (also LADC).
